PROFILE

Software Engineer with hands-on experience developing full-stack web applications using React, Next.js, Angular, Node.js, NestJS, and Express.js. Completed a software engineering internship at Shispare, building REST APIs, authentication, RBAC, and responsive user interfaces in an Agile environment.

EXPERIENCE

Software Engineering Apprentice | Shispare

Jan 2026 – Apr 2026 | Karachi, Pakistan

- Developed full-stack features using **Next.js** and **NestJS**.
- Built **REST APIs**, authentication, and **RBAC**.
- Reduced redundant authenticated-user API requests through improved client-side state management.
- Worked with **MongoDB** and SQL databases.
- Collaborated in **Agile/Scrum**, participating in code reviews, debugging, testing, and sprint delivery.

Angular Developer (Project-Based) | Browsefy Tech

Jan 2025 – Sep 2025 | Remote

- Developed reusable UI components using **Angular**, **TypeScript**, and **SCSS**.
- Integrated **REST APIs** and resolved frontend issues.
- Improved usability using Human-Computer Interaction (HCI) principles.

PROJECTS

Secure Authentication & RBAC System

NestJS • MongoDB • JWT

- Built secure authentication supporting Admin, Editor, and User roles.
- Implemented **JWT**, **RBAC**, and protected API routes.

Submind – Subscription Dashboard

React • Tailwind CSS

- Built a responsive dashboard with reusable components and API integration.

Pizza Sales Analytics

MySQL • SQL

- Analyzed sales trends using joins, subqueries, window functions, and aggregates.

Imperium Dynamics Clone

Angular • SCSS

- Developed a responsive website using reusable Angular components.
